

Yossi Elgazari

Software Engineer

054-9806162 | yossielg98@gmail.com | linkedin.com/in/yossielgazari | yossielg.xyz

Hebrew: Native | English: Fluent

PROFESSIONAL SUMMARY

Software Engineer specializing in backend architecture, scalable services and production systems. Experienced in leading end-to-end development of web and mobile applications, from system design and API development to cloud deployment, production support and third-party integrations. Strong advocate for clean architecture, technical ownership, and reliable software that scales.

PROFESSIONAL EXPERIENCE

Full Stack Developer | IVTech LTD | October 2024 - Present

- Lead multiple web and mobile projects, owning the software lifecycle from architecture and implementation through deployment and production support.
- Build and maintain React and React Native applications, integrating third-party APIs and internal systems for complex business workflows.
- Design scalable backend services and REST APIs with Node.js, TypeScript, and Python, applying microservices and event-driven architecture.
- Manage cloud and DevOps workflows across AWS (EC2, S3, Lambda), Docker, Kubernetes, CI/CD pipelines, and multi-environment configurations.
- Leverage Claude Code, GitHub Copilot, and OpenAI Codex across codebase analysis, implementation, debugging, refactoring, testing and workflow automation.

Backend Developer Intern | Bridgify | August 2023 - October 2023

- Maintained Python backend systems using Requests and Pandas, with a focus on API integrations.
- Wrote clean, efficient, and well-documented code to enhance backend system functionality.

PERSONAL PROJECT

Final Project: AI Model for Detecting Obfuscated Code | SCE - Sami Shamon | 2024

- Developed an AI model with a peer to detect file obfuscation and identify the obfuscator used.
- Used Random Forest, Gradient Boosting, and SVM models with sklearn and NumPy on Ubuntu, achieving approximately 97.30% classification accuracy.

EDUCATION

B.Sc. in Software Engineering | SCE - Sami Shamon College of Engineering | 2020 - 2024 | GPA: 89

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Python, C#, C++, Java

Frontend: HTML5, CSS3, React, React Native, Vue.js, Angular

Backend & Architecture: Node.js, Express.js, Python, REST APIs, Microservices, API Design & Integration, Kafka

Databases & ORM: PostgreSQL, MongoDB, SQLite, NoSQL, Prisma

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Kubernetes, GitHub Actions, CI/CD pipelines, Environment Configuration

Tools & Environments: Git, Figma, Ubuntu/Linux, macOS

AI Development Tools: Claude Code (GSD, Caveman skills), GitHub Copilot, OpenAI Codex

MILITARY SERVICE

Border Fighter | Military Police, Israel Defense Forces (IDF) | 2016 - 2019

- Completed a commander's course and supervised a security checkpoint at Jerusalem borders, ensuring safety and operational efficiency.
